PERFORMANCE MAKEUP GUIDE

***Begin by applying foundation, concealer or loose powder.**

1. Create a brow bone outline with your **darkest shade** following the halfway point of the eyelid crease to the outer corner of the eye - lightly fill in with an angled brush.

2. Blend using your **medium shade** in the mid section of the eyelid, and slightly above the crease, using a fluffy eye lid brush - less is more and you can always add if needed. *Do not fill all the way in to inner corner of the eye.*

3. Highlight below the eyebrow following its natural shape with your **lightest shade**. You may also highlight - sparingly - the inner corner of the eye.

4. Fill In Brow (if needed)

5. Apply Black liquid eyeliner to top lid only.

6. Follow with Eye lash application and mascara (optional for Beginning dancers).

7. Apply your Blush/Bronzer following the angle of your cheek bone - lightly blending out to the ear.

8. Apply lipstick

**Apply makeup setting spray or powder. (optional)*
